The Growing Network

Community Swap Shop

Bring what you can-Take what you need. All are welcome!

(If you can't bring anything, come anyway for a cuppa and learn more!)

We are a non-profit community initiative that supports local people to network, be self-sufficient and grow their own food. At our events we offer plant and seed swaps, locally grown fruit and veg, skill sharing and advice on gardening and allotments, donated books and gardening equipment when available. We also offer free, basic bicycle repair and advice (Orpington only), free hand massages, nutrition advice, freshly made soup, tea/coffee or just a chat! Donations are welcome towards costs.

**Find us on Facebook - The Growing Network UK - to see if
there is an event near you!**
